

PLAN A PARK VISIT

1

ACCESS MY DISNEY EXPERIENCE

- Sign into *My Disney Experience* at [StartYourDisneyExperience.com](https://www.disney.com/startyourdisneyexperience.com).
- Create profiles for family and friends in your travel party.
- **Optional:** Invite family and friends to connect with you using the email address associated with their Disney account.

TIP: All Guests must appear in the Family & Friends list of the Guest making Park reservations on behalf of the travel party.

2

LINK RESERVATIONS & TICKETS

- Link existing Resort or vacation package reservations and select travel party members from your Family & Friends list, as applicable.
- Link Park tickets and assign them to your travel party from your Family & Friends list.

TIP: Tickets included with a vacation package are automatically linked to travel party members in your Family & Friends list when the package reservation is linked.

- Visit the *My Plans* page to verify that all tickets and Resort reservations are linked to the appropriate Guests within the travel party.

3

BOOK DISNEY PARK PASS RESERVATION

- Sign into the *My Disney Experience* website on the eligible date.
- From the *My Disney Experience* drop-down menu, click the **Disney Park Pass System** button.
- Select the Park your travel party would like to visit first.

TIP: Park reservations for Guests with differing affiliations (i.e., Resort Guests, Annual Passholders, or Day Guests) must be booked separately.

TIP: Guests who have purchased the *Park Hopper*® or *Park Hopper*® Plus Options only need to book a Disney Park Pass reservation for the Park they wish to visit first. They do not need additional reservations to visit other Parks later that same day.

- When the maximum number of active Park reservations have been booked, additional reservations may only be booked after existing reservations have been used.

4

ENTER RESERVED PARK

- Touch *MagicBand* or RFID-enabled ticket to an entry touchpoint at the reserved Park.
- Guests with valid admission and Park reservations may enter at any time during Park hours for the reserved date.
- Guests with the *Park Hopper*® or *Park Hopper*® Plus Options must first enter the Park they reserved, before they are able to visit other Parks during the posted *Park Hopper*® Hours for the day, subject to capacity limitations.
